How The Three Cart System Works

Trash Cart with the Black Lid

The cart is collected at the curb every week on your regular scheduled collection day.

Placement of all carts at the curb is essential to insure collection by automated trucks. Place your trash cart on either side of your driveway, at the edge of the curb. Allow a minimum of three feet of clearance on all sides of the cart from objects such as trees, fences, mailboxes, streetlights and other carts. Carts must be a minimum of six feet from any vehicles. Position your carts in a manner so that pedestrians can use the sidewalk.

Mixed Recycling Cart with the Yellow Lid

You can do your part to help save landfill space, preserve natural resources, and conserve energy by participating. Put your recycling cart in a convenient location and use it every day. Make the recycling life-style a part of your household.

Recycling is easy with this collection system. Just fill your Yellow Lid cart with the acceptable materials listed below. Place this cart at the curb every other week along with your trash cart for collection. Use the convenient color-coded Collection Schedule Calendar on the reverse side as an easy reference.

Yard & Garden Cart with the Green Lid

Recent surveys show that up to 40% of the residential waste stream is made up of organic green waste. You can help reduce waste by putting your yard and garden waste into this cart. Place this cart at the curb every other week along with your trash cart for collection. Use the convenient color-coded Collection Schedule Calendar on the reverse side as an easy reference.

ACCEPTABLE MATERIALS

PLEASE PLACE ONLY THESE ITEMS IN YOUR RECYCLING CART
